<b>Hickman County Board of Education</b>			
Monitoring: <b>Review: Annually, in October</b>	Descriptor Term: <b>Student Transportation Management</b>	Descriptor Code: <b>3.400</b>	Issued Date: <b>05/06/19</b>
		Rescinds: <b>3.400</b>	Issued: <b>08/01/05</b>

*General*

School buses shall be maintained and operated in accordance with state law and State Board Rules and Regulations.<sup>1</sup>

Each bus shall be equipped with the phone number for reporting safety complaints. This number shall appear on the rear bumper.<sup>2</sup>

To avoid the financial burden of replacing an aging bus fleet at any one time, the board shall attempt to replace a certain number of buses each year on a rotating basis.

All accidents, regardless of the damage involved, must be reported to the transportation supervisor, including incidents in which any part of the bus contacts any other object or vehicle.

The director of schools shall develop procedures to ensure compliance with the statutory and regulatory requirements for the transportation program.

**TRANSPORTATION SUPERVISOR<sup>3</sup>**

The director of schools shall appoint a transportation supervisor for the system. He/she shall be responsible for the monitoring and oversight of transportation services for the district.

The transportation supervisor shall complete a student transportation management training program upon appointment. Every year the transportation supervisor shall complete a minimum of four (4) hours of training annually.

The director of schools shall ensure that training is completed and provide the state department of education with appropriate documentation.

**COMPLAINT PROCESS<sup>4</sup>**

The following procedure will govern how students, teachers, staff, and community members shall submit bus safety complaints:

1. All complaints shall be submitted to the transportation supervisor; and
2. Forms may be submitted in person, via phone, mail, or email.
  - a. Written complaints shall be submitted on forms located on the district’s website. In the case of a complaint received via phone, the person receiving the phone call shall be responsible for filling out the form and submitting it to the transportation supervisor.

The transportation supervisor shall begin an investigation of all bus safety complaints within twenty-four (24) hours of receipt.

Within forty-eight (48) hours of receipt of the initial complaint, the transportation supervisor shall submit a preliminary report to the director of schools. This report shall include:

1. The time and date the complaint was received;
2. The name of the bus driver;
3. A copy or summary of the complaint; and
4. Any prior complaints or disciplinary actions taken against the driver.

Within sixty (60) school days of receiving the initial complaint, the transportation supervisor shall submit a final written report to the director of schools that details the investigation's findings as well as the action taken in response to the complaint.

An annual notice of this complaint process shall be provided to parents and students. This information shall be made available in the student handbook.

#### **RECORDKEEPING<sup>5</sup>**

The transportation supervisor shall be responsible for the collection and maintenance of the following records:

1. Bus maintenance and inspections forms;
2. Bus driver credentials, including required background checks, health records, and performance reviews;
3. Driver training records; and
4. Complaints received and any records related to the investigation and complaints.
5. D

#### **SCHOOL BUS SAFETY RESTRAINT SYSTEMS**

The Hickman County Board of Education operates some school buses with three-point lap/shoulder seat restraint systems (and integrated child restraint systems).

Use of seat restraint systems shall be mandatory for all student riders on buses equipped with this safety technology.

## **SEAT RESTRAINT NON-COMPLIANCE**

Students who forget to put on their seat restraint will be given a verbal reminder/warning. Students removing their seat restraint during the route or refusing to wear their seat restraint will be issued a written discipline referral. The local school authority will discipline the student in a manner consistent with other safety-related behavioral infractions.

## **SEAT RESTRAINT TRAINING**

The transportation supervisor will conduct annual training for all school bus drivers on the implementation and use of seat restraints.

School bus drivers will train students on the proper implementation and use of seat restraints annually at the start of each school year to ensure each passenger is familiar with the operation of seat restraints. The driver will emphasize that each rider remains secured in their seat with their seat restraint fastened at all times during their ride.

All students will receive additional instruction on the proper use of seat restraints at least two (2) additional times per year.

Bus drivers will instruct students to put on their seat restraints at three time periods:

1. Morning: When students board the bus, the driver will inform student to buckle up.
2. On Route: If a student takes their restraint off (visibly) while riding.
3. Afternoon: The driver will walk from the front to the back of the bus one time prior to departure.

Note: Drivers and attendants are not responsible (i.e., liable) for students wearing their seat restraints while riding. Drivers and attendants are responsible for instructing students to put on the seat restraint and/or referring the student for discipline if the student refuses to be compliant with seat restraint utilization.

## **SEAT RESTRAINT MALFUNCTION**

If the seat restraint cannot be disengaged while in use, the driver is required to assist the passenger and, if necessary, cut the belt to relieve the restraint and safely remove the passenger.

## SCHOOL BUS IDLING POLICY

This policy applies to the operation of every district-owned and/or contracted school bus.

Rationale: Exhaust from idling school buses can accumulate in and around the bus and pose a health risk to children, drivers and the community at large. Exposure to exhaust can cause lung damage and respiratory problems. Exhaust may exacerbate asthma and existing allergies. Idling buses also waste fuel and financial resources.

Purpose: Eliminate unnecessary idling by Hickman County Board of Education school buses (including activity buses) and minimize idling time in all aspects of school bus operation.

Guidance:

1. If there is a wait time of more than fifteen (15) minutes when arriving at a loading/unloading zone to pick up or drop off students, school bus drivers shall turn off their buses as soon as possible to eliminate idling time and reduce harmful emissions. The school bus should not be restarted until it is ready to depart and there is a clear path to exit the pick-up area. Exceptions include conditions that would compromise passenger safety, such as extreme weather, idling in direct traffic, or necessary idling for use of bus safety lights/equipment or wheelchair type lifts.
2. Limit idling time during early morning warm-up to what is recommended by the manufacturer (3-5 minutes) in all but the coldest weather. Exceptions include idling necessary for pre-trip inspection and idling necessary to defrost windows and mirrors for safe operation of the school bus.
3. Buses should not idle while waiting for students during field trips, extracurricular activities, or other events where students are transported off school grounds.
4. In cold weather, schools are directed to provide a space inside the school where bus drivers can wait if they have shut down their bus.
5. In colder weather, if the warmth of the bus is an issue, idling is to be at a very minimum and occur outside the school zone. The “warmed” bus is to enter the school zone as close to pick-up time as possible to maintain warmth and then shut down if there is a wait time of more than fifteen (15) minutes.
6. All currently employed drivers shall receive a copy of this policy and be trained regarding the policy’s requirements. As a part of the onboarding and/or new hire process,

all new drivers shall receive a copy of this policy and be trained regarding the policy's requirements.

7. Excessive idling by the driver may result in disciplinary action.

General Exemptions: The actions outlined in the guidance section above need not apply for the period(s) during which idling is necessary:

1. While stopped:

a. For an official traffic control device;

b. For an official traffic control signal;

c. For traffic conditions over which the driver has no control, including, but not limited to, stopped in a line of traffic; or

d. At the direction of a law enforcement officer;

2. To ascertain that the school bus is in safe operating condition and equipped as required by all provisions of law, and all equipment is in good working order, either as part of the driver's daily vehicle inspection, or as otherwise needed;

3. For testing, servicing, repairing, or diagnostic purposes by maintenance staff;

4. To cool down a turbo-charged diesel engine for turning the engine off, for a period not to exceed 5 minutes (as per the recommendation of the manufacturer);

5. To operate:

a. A lift or other piece of equipment designed to ensure safe loading, unloading, or transport of persons with one or more disabilities; or

b. A heater or an air conditioner of a bus or vehicle that has, or will have, one or more children with exceptional medical needs aboard whose IEP requires such;

6. To operate defrosters, heaters, air conditioners, or other equipment to ensure the safety or health of the driver or passengers;

7. To recharge a battery or other energy storage unit of a hybrid electric bus.

Additionally, zero emission electric buses are exempt from this policy as they do not emit harmful exhaust while at idle. Non-electric buses may also be exempt from this policy as

they do not emit harmful exhaust while at idle. Non-electric buses may also be exempt from this policy in the instance that they are equipped with onboard anti-idling technologies (e.g., fuel operated heaters / direct fired heaters).

1.405—Rules of Order

TSBA wanted you to know about a potential legal concern with policy 1.405. This policy states that the rules of order may be suspended by a two-thirds vote (line 14). TSBA recommends against using this language as it conflicts with TCA 49-2-202 (g) (“A majority of all of the members constituting the board, and not merely a majority of the quorum, shall be required to transact all business coming before the board in regular or special meetings.”).

3.400—This policy updates the policy and add provision for seat belts on school buses.
