6. Policy 4.605 Graduation Requirements/Activities

The State Board of Education recently issued a rule that requires all school districts to develop a policy prescribing how students graduating with "state honors" will be noted and recognized. This is in addition to the existing requirement that school districts designate how students graduating with "distinction" will be recognized. This policy recommendation states that principals shall ensure that students graduating with "distinction" and "state honors" are recognized at graduation.

7. Policy 5.108 Supervision

8. Policy 6.311 Care of School Property

9. Policy 6.316 Suspension/Expulsion/Remand

Turn to page 3: Remove the noted lines; students do not receive a "hearing" until it reaches the Student Disciplinary Hearing Authority (in which the lines are included [policy #6.317, attached]).

10. Policy 6.317 Student Disciplinary Hearing Authority

11. Mandatory ACT Prep classes for Juniors (?)

Juniors are not required to take the ACT Prep class; it is offered. Should it be mandatory for Juniors to take the ACT Prep class?
